

# OPTIMA OPTIMA APOS SERIES

6" TOUCH SCREEN

# APOS-01

## A TRUE COMPLETE ALL-IN-ONE POS SOLUTION

### Designed with simplicity & reliability

Optima's APOS-01 ® is integrated with everything you need to meet multiple commercial needs including a 6" Touch Screen, and WIFI. The modularized hardware design makes for easy maintenance and convenience with an easy loading mechanism that provides fast paper roll replacement procedure. Equipped with a built-in 2 2Ah battery for operations on the go.

### POS Software with NO Monthly Fees!

Buy it once and own it forever! Let's face it, businesses are often offered free basic point of sale systems, but in the end, get slapped with unanticipated monthly or hidden fees. Optima APOS offers full featured POS system for a one time purchase with lifetime updates included and no monthly fees that will instantly help improve your cash flow and long term savings.

### Accept a wide range of payment options

Thanks to our strategic partnerships, the APOS series seamlessly integrates with all major processors in North America, including PAX. Furthermore, the APOS series extends its support to thousands of ISOs (Independent Sales Organizations) and merchant service providers.

### Power-packed performance

The APOS-01 is designed and tested to be on the go providing the best experience with mobile convenience. Packed with Qualcomm processors producing high performance and low power consumption, ensuring a stable, efficient and safe system operation.
